

# INFECTION CONTROL KEYBOARD AND MOUSE

Smart accessories for your X-ray system

- Spill resistant
- Wipe disinfectable
- Standard hospital approved disinfectants can be used
- Keeps germs out
- Compact format
- Easy to use

The infection control keyboards and mouse are perfect accessories for the X-ray systems from Arcoma. With these products it is easy, quick and safe to disinfect and clean the system components daily. The keyboard and mouse are designed for use in all medical environments and have a completely flat surface that enables easy cleaning and maximum infection control with excellent tactile key response. With cleaning time of less than 5 seconds, cleaning between patients can be easily achieved.
